

Seamless Wide Area Coverage with Intelligent Insight

Johnson Controls is proud to introduce the **Illustra Panoramic Multisensor Camera**, a powerful video surveillance solution designed to deliver a **single, uninterrupted panoramic view** with exceptional clarity and intelligence, ideal for monitoring large, open environments with fewer devices.

The Illustra Panoramic Multisensor Camera combines **three synchronized image sensors** into a **14.47MP stitched panoramic image**, providing an expansive **188° horizontal field of view**. This seamless, wide-angle coverage helps reduce blind spots while simplifying system design and deployment.

Engineered for reliable performance in challenging lighting conditions, the camera features **True Day/Night imaging**, **Smart IR**, and **ultra-low light sensitivity** to deliver clear, detailed video around the clock. Built-in **AI video analytics** enable intelligent object classification, event detection, and proactive monitoring, turning panoramic video into actionable insights.

Key benefits include

- Single, high-resolution panoramic view with reduced blind spots
- Built-in AI analytics for smarter detection and response
- Optimized bandwidth and storage with Illustra IntelliZip®
- Rugged, cybersecure design for indoor and outdoor environments

Designed for scalability and resilience, the Illustra Panoramic Multisensor Camera features **IP66/IP67 weather protection, IK10 vandal resistance, and ISA/IEC 62443-aligned cybersecurity**, supporting dependable operation in demanding, mission-critical applications. With the Illustra Panoramic Multisensor Camera, organizations gain wider visibility, smarter insight, and simplified surveillance—without sacrificing performance or reliability.
